

FOUNDATIONS FOR KNOCK DOWN REBUILD PROJECTS

THE BENEFITS OF STEEL SCREW PILES

Ideal for sloping
sites with raised
floors

Perfect for sites
that require
deep foundations
(1.5m +)

No spoil to
remove.

Recommended
for reactive soil
and filled sites

HOW WE WORK

WE GO THE EXTRA MILE TO
GIVE YOU PEACE OF MIND.

STEP 1

Review your structural drawings and GeoTech report to provide an accurate cost estimate.

STEP 2

Mark-out the job to ensure precise screw pile location.

STEP 3

Deliver your screw piles on-time and in-full.

STEP 4

Install your screw piles to required torque measurement.

STEP 5

Certify the installation with Engineers using our mobile installation reporting app.
